TWINLed

The overall light system

LED there be light

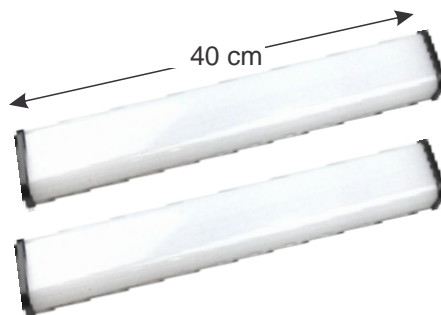

Professional company vehicle lightning

If it's well lit, it will be easily found!

Looking for the required component or screw... is a regular routine for the skilled person
Frustrating when you know it's there, but you can't see it.
Install TwinLed in your cargo area and searching in the dark is a thing of the past.

The central position ensures every corner of the cargo area, even the highest shelf.
The Osram-LEDs emit strong, natural light, which is dispersed nicely by the PP plastic cover, ensuring they never dazzle.

Compact and medium size vans
