

A non-blinding strong light source.

TwinLed technology in an Ip65 waterproof and impact resistant fixture with aluminum base. Built in low-voltage technology (DC 12v.) For optimal safety.

The built-in PIR (Passive Infrared) motion detector enters the fixture switch on during movement and this for a fixed set time.

#### Technical features:

- dimensions 400 x 55 x 35 mm.(incl. magnets)
- Voltage DC 12 v.
- Power 40 cm. 0.83Amp. / 60 cm. 1,3 Amp.
- Wattage 40 cm. 10 watt / 60 cm. 16 watt.
- Light output 40 cm. 1700 Lumen  
60 cm. 2650 Lumen
- Light color 4000 K, summer sunlight.
